## Conflict Minerals Declaration

Diplomatic Automation is aware of our obligations with regards to laws and regulations regarding Conflict Minerals, specifically the Dodd-Frank Wall Street Reform and Consumer Protection Act, Section 1502.

Diplomatic Automation does not directly source or process conflict minerals such as cassiterite (tin), columbite-tantalite (tantalum), wolframite (tungsten) and gold or their derivatives; or any other mineral or its derivatives to be financing conflict in the Democratic Republic of the Congo or an adjoining country.

Conflict minerals are contained in our products in the form of solder or as a component in metal alloys. As part of our reasonable due diligence Diplomatic Automation has contacted component suppliers within our supply chain to verify their continued compliance with the regulations.

Based on the information received thus far we declare that our products contain Conflict Minerals sourced from conflict-free areas.
